Public Services

# Just some of our customers

MCP works with some of the world's leading global brands. We put our customers first and guide them to turn knowledge and data into smarter business outcomes.

# What our clients say

“MCP provided the tools and techniques to enable our engineering teams to deliver cost savings and efficiencies without increasing staff number, whilst continuing not only to grow the asset base in size but also increase the quality of its performance and, in a particular, reliability.

MCP’s ability to expose and challenge assumptions has built a strong partnership and created a long-term relationship that is sustainable, innovative and delivers real value.”

Heathrow

**Chris Garton**

Aviation and Aerospace Sector

Consultancy testimonial

# What our clients say

“MCP assisted us in getting the basics right to drive our Overall Equipment Effectiveness (OEE) programme. We chose to use MCP’s AMIS Assessment to benchmark our practices. With MCP’s support and guidance we were able to progress and stretch ourselves to achieve our goals. OEE increased from 43% to over 60%, though put increased and we had fewer break downs and reduced planned maintenance downtime.

The softer measures such as staff engagement, moral and team work are as important, in supporting our ongoing progress and achievements.”

**Paul Townsend**

Food Sector

Consultancy testimonial

# Awards and accreditations

MCP is committed to setting high standards. As proof of our professionalism and competence we list our awarding bodies, memberships and accreditations. In 2016, MCP was awarded The Queen's Award for Enterprise: International Trade 2016.

# Something to read?

At MCP we are always happy to share our experience, knowledge and expertise and regularly promote a variety of eBooks, white papers and case studies.
